

# RESREAL DESIGNS

Architecture & Engineering Services

Project Design Roadmap

## Step 1: Complimentary Consultation

- ResReal Designs gathers your project information
- Exterior work requires a Property Survey be emailed to us
- Schedule a Complimentary Consultation

## Step 2: Sign on with ResReal Designs

- ResReal Designs prepares a Proposal of Service
- Client signs contract and makes initial deposit
- Field measurement visit is scheduled

## Step 3: Time to Measure

- ResReal Associates conduct a home visit to collect field measurements and pictures
- Design Team prepares existing layout as the template to begin design

## Step 4: Design Your New Home

- Virtual Kick-off Meeting to show Existing Condition Plans and review your design intent
- The next few weeks design options are discussed through virtual meetings
- Conclude with client confirming preferred floor plan

## Step 5: Select a Contractor

- Construction Bid Plans are prepared
- Construction Bid Plans provide detail for Contractors to review and price the project
- Homeowner selects contractor

## Step 6: Plans are Ready!

- Final review of floorplans
- Print and stamp Construction Permit Plans
- Plans undergo Local Building Department review and approval process
